

Agenda Item Details

Meeting	Nov 15, 2021 - Regular School Board Meeting - Revised
Category	4. Administrative Reports
Subject	4.7 IT System Administrator Report
Access	Public
Type	Reports

Public Content

There is not a lot new to report this month. We are still focusing on finishing some of our larger projects. Ongoing projects include finalizing the installations of our new web filter and firewall, and finishing the setup of the library laptops. We are also continuing to install paging speakers in classrooms, and have more on order to complete that project. We are also testing network based amplifier to use with some of our existing paging speakers.

Norvado was onsite recently wiring the new offices in the old catwalk area, along with a few extra locations. We are also planning a visit from CodeRed Security to install the last 2 electronic door locks. The system has been reconfigured to accommodate changes requested by administration.

We continue to work on our data submissions to WISEdash and WISEdash Local, along with adding features to Infinite Campus to better track student progress and interventions.

Respectfully submitted by Chris Plansky, IT System Administrator
