Category	5. Administrative Reports
Subject	5.4 Elementary Report
Type	Reports

Bayfield and LaPointe Elementary Monthly School Board Report

Submitted by: Mike Peterson

Date: April 22, 2024

Student Success:

Academic Monitoring:

Academic monitoring is one of the drivers for the student success pillar. Below you will find info pertaining to our current efforts.

State Testing

- Third, fourth and fifth grade teachers and students are wrapping up our 2024 Forward Exam testing. Most of our students have been successful in completing all the sections required at their grade level and make-ups will be completed before the window closes on April 26. The data from these tests are released to schools in late summer and publicly in September. The ES will conduct a "data dig" to guide our instructional planning for next year early in the 24-25 SY.

District Testing

- Elementary students will be completing our spring universal screener for math and reading (NWEA MAP) from May 6-23. This will be the third screener of the year with this tool and it will give us data to understand each learner's strengths and areas for growth. It will also help us determine areas of instructional need at the classroom, grade and school level. Teachers, grade level teams and our ES staff will do a data dig before the end of the year as part of the PLC process to determine areas of improvement and create plans to address instructional needs.

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
